

Help Out on State Natural Areas

Oshkosh-Larsen Trail Prairie Work Day

Celebrate the first day of summer out on the prairie!

Restoration is taking place on the trail prairie and your help is needed. The Northeast WDNR State Natural Area Crew has spent the past two years controlling brush and herbaceous weeds as well as prescribed burning. Help us make headway on herbaceous invasive species including wild parsnip and sweet clovers. If you cannot stay for the entire time, no problem, any amount of help is welcome! Bring a bag lunch, snack, and water. No skills needed, you will be trained onsite. Work will include hand pulling with parsnip predators and mowing with brushcutters.

Date: Thursday, June 21, 2018

Time: 10a – 3p

Directions: Meet at the Allenville parking lot south off of Cty Hwy G (nearest intersection is Cty Hwy G and Hilltop Rd.). [Google map.](#)

What to wear: Dress for the weather, and weeds – long sleeves and pants are recommended as wild parsnip can burn the skin when contacted as well as sturdy work boots, work gloves, eye protection, and hearing protection. Extra eye and hearing protection will be available.

Contact, cancellation and RSVP info: If you plan to come please email Justin.Nooker@wisconsin.gov or call 920-360-1463. If you think the work day may be cancelled (weather, etc) please call or email Justin.

Brush pile @ Osh-Larsen Trail Prairie – fall 2017
